A

Aardvark fossils. Fossil aardvark (*Orycteropus*) from Swartkrans Cave, South Africa 311
Acacia cyclops. A preliminary assessment of utilizable biomass in invading *Acacia* stands on the Cape coastal plains 123
Acacia mearnsii. A preliminary assessment of utilizable biomass in invading *Acacia* stands on the Cape coastal plains 123
Acacia mearnsii. Water use by black wattle (*Acacia mearnsii*): implications for the link between removal of invading trees and catchment stream flow response 40
Acacia saligna. A preliminary assessment of utilizable biomass in invading *Acacia* stands on the Cape coastal plains 123
Academies of science. 'Science' or 'Sciences': the difference one letter makes 235
Acartia longipatella. *In situ* feeding rates of the copepods, *Pseudodiaptomus hessei* and *Acartia longipatella*, in a temperate, temporarily open/closed Eastern Cape estuary . . . 577
Accredited journals. Evaluating the impact and visibility of the *South African Journal of Science* 515
AFM measurements. Advantages of scanning probe microscopy in polymer science 256
AFM scans. Analyses of gamma-ray and neutron-induced chromosome aberrations in CHO-K1 cells using the atomic force microscope 431
African *Podocarpus*. A yellowwood by any other name: molecular systematics and the taxonomy of *Podocarpus* and the Podocarpaceae in southern Africa 629
African potato. The African potato (*Hypoxis hemerocallidea*): a chemical-historical perspective 425
African taphonomy. African taphonomy: a celebration of the scientific life of C.K. 'Bob' Brain 241
Agro-ecosystems. Scarabaeine dung beetles as indicators of biodiversity, habitat transformation and pest control chemicals in agro-ecosystems 415
AIDS pandemic. Human immunodeficiency virus — one of nature's greatest evolutionary machines 479
Air pollution. Air pollution-derived trichloroacetic acid contributes to degradation of vegetation in South Africa 289
Aizoaceae (Mesembryanthemaceae). Pollination biology of *Bergeranthus multiceps* (Aizoaceae) with preliminary observations of repeated flower opening and closure 624
Albany Museum (Grahamstown, South Africa). One hundred years of botany at Rhodes University 609
Alice (Eastern Cape, South Africa). Rural water treatment plants fail to provide potable water to their consumers: the Alice Water Treatment Plant in the Eastern Cape province of South Africa 307
Alien control programmes. Social benefits in the Working for Water programme as a public works initiative 94
Alien control programmes. The role of resource economics in the control of invasive alien plants in South Africa 87
Alien grass invasions. Grasses as invasive alien plants in South Africa 69
Alien plant invasions. Biological control in the management of invasive alien plants in South Africa and the role of the Working for Water programme 34
Alien plant invasions. Invasive alien plants and water resources in South Africa: current understanding, predictive ability and research challenges 27
Alien plant invasions. Invasive alien plants in South Africa: how well do we understand the ecological impacts 45
Alien plant invasions. Quantifying threats to biodiversity from invasive alien plants and other factors: a case study from the Cape Floristic Region 81
Alien plant invasions. Recent research on alien plant invasions and their management in South Africa: a review of the inaugural research symposium of the Working for Water programme 21
Alien plant invasions. Scientific challenges in the field of invasive alien plant management. . . . 19
Alien plant invasions. Targeting emerging weeds for biological control in South Africa: the benefits of halting the spread of alien plants at an early stage of their invasion 64
Alien plant invasions. The role of resource economics in the control of invasive alien plants in South Africa 87
Alien plant species. A proposed classification of invasive alien plant species in South Africa: towards prioritizing species and areas for management action. 53
Alien tree invasions. A rapid assessment of the invasive status of *Eucalyptus* species in two South African provinces 75
Alien tree invasions. Impacts of invasive alien plants on Red-Listed South African dragonflies (Odonata) 78
Alien tree invasions. Water use by black wattle (*Acacia mearnsii*): implications for the link between removal of invading trees and catchment stream flow response 40
ALLOTT, L.F. 179
Alpha-Al_2O_3:C. Concerning secondary thermoluminescence peaks in α-Al_2O_3:C 524
Anatomical EUVR exposure. Anatomical distribution of ultraviolet solar radiation 498
Ancestral viruses. Human immunodeficiency virus — one of nature's greatest evolutionary machines 479
ANDERSON, H.J., *et al.* 113
ANDERSON, R., *et al.* 305
ANHAEUSSER, C.R., *et al.* 549
Animal ecology. Stable isotopes: powerful new tools for animal ecologists. 131
ANNEGARN, H., *et al.* 483
ANNEGARN, H.J., *et al.* 5
Anopheles gambiae. The influence of genomics on the control of malaria and other vector-borne diseases 475
ANSORGE, I.J., *et al.* 319
Antarctic Polar Front (APF). An interdisciplinary cruise dedicated to understanding ocean eddies upstream of the Prince Edward Islands 319
Anthropogenic air pollution. Air pollution-derived trichloroacetic acid contributes to degradation of vegetation in South Africa 289
Anti-malarial drug development. Fatty acid synthesis in *Plasmodium*: a novel target for anti-malarial drug development 459
Antimicrobials. Natural antimicrobials as potential replacements for calcium 342
Anti-pernicious anaemia factor. Fifty years of X-ray crystallography of vitamin B_{12} and its derivatives 368
Anti-tubercular drugs. Mutational dynamics in *Mycobacterium tuberculosis*: implications for the evolution of drug resistance 471
APF frontal system. An interdisciplinary cruise dedicated to understanding ocean eddies upstream of the Prince Edward Islands 319
Apoplasmic control. The microstructure of plasmodesmata in internodal stem tissue of the *Saccharum* hybrid var. Nco376: evidence for an apoplasmic loading pathway 619
Arbuscular mycorrhizal (AM) status. Mycorrhizal status of indigenous tree species in a forest biome of the Eastern Cape, South Africa 633
Archaean lamprophyres. Evidence for Archaean lamprophyre from the Kaapvaal Craton, South Africa 549
Archaeological charcoal. Changing environments in Oxygen Isotope Stage 3: reconstructions using archaeological charcoal from Sibudu Cave 179
Archaeological site, Kasteelberg. Organic residue evidence for the processing of marine animal products in pottery vessels from the pre-colonial archaeological site of Kasteelberg D east, South Africa 279
Arum-type associations. Mycorrhizal status of indigenous tree species in a forest biome of the Eastern Cape, South Africa 633
Asbestos-related diseases (ARD). Report from a Pedi village 408
Ascospores. Revealing yeast spore movement in confined space. 237
Ash deposits in Sibudu Cave. A mineralogical and phytolith study of the Middle Stone Age hearths in Sibudu Cave, KwaZulu-Natal, South Africa 185
ASSAf Presidential Lecture 2003. 'Science' or 'Sciences': the difference one letter makes 235
Atmospheric water vapour. Near real-time detection of atmospheric water vapour using the SADC GPS network 436
Atomic force microscope (AFM). Advantages of scanning probe microscopy in polymer science 256
Atomic force microscope (AFM). Analyses of gamma-ray and neutron-induced chromosome aberrations in CHO-K1 cells using the atomic force microscope 431
Australian wattles. A preliminary assessment of utilizable biomass in invading *Acacia* stands on the Cape coastal plains 123
Automotive electronics. A new integrated packaging technology for high-power automotive electronics 273
Avian behavioural ecology. Iris colour in passerine birds: why be bright-eyed? 584
Avian species richness. Conservation during times of change: correlations between birds, climate and people in South Africa 266
Avifauna. Conservation during times of change: correlations between birds, climate and people in South Africa 266

B

B_{12}-dependent enzymology. Fifty years of X-ray crystallography of vitamin B_{12} and its derivatives 368
BACKEBURG, B., *et al.* 319
Baculoviruses. Identification of three genes of *Helicoverpa armigera* single-enveloped nucleopolyhedrovirus and their application in determining HaSNPV-SA phylogeny 301
BADENHORST, S. and PARSONS, I. 384
BAREETSENG, A.S., *et al.* 237
BARKER, N.P., *et al.* 589, 624, 629
BARNARD, W.S. 243
BARRETT, P.M. 501
BARRY, C.E. (III), *et al.* 471
Baylis-Hillman reactions. Ten years of marine natural products research at Rhodes University 545
Beaconsfield (Grahamstown, South Africa). The kaolinitic clay deposits on Beaconsfield, north of Grahamstown 560
BEAUVILAIN, A. and LE GUELLEC, Y. 142
Bergeranthus multiceps. Pollination biology of *Bergeranthus multiceps* (Aizoaceae) with preliminary observations of repeated flower opening and closure 624
BERNARD, A., *et al.* 319
BERNARD, K., *et al.* 319
BERRIMAN, M. 452
BEUKES, D.R. and DAVIES-COLEMAN, M.T. 415
BHAM, N., *et al.* 415
Biodiversity, threats to. Quantifying threats to biodiversity from invasive alien plants and other factors: a case study from the Cape Floristic Region 81
Biological control of invasive alien plants. Costs and benefits of biological control of invasive alien plants: case studies from South Africa 113
Biological diversity. Mechanisms generating biological diversity in the genus *Platypleura* Amyot & Serville, 1843 (Hemiptera: Cicadidae) in southern Africa: implications of a preliminary molecular phylogeny 589
Biological invasions. Alien plant invasions in South Africa: driving forces and the human dimension 103
Biological oceanography. The Southern Ocean Group at Rhodes University: seventeen years of biological oceanography in the Southern Ocean reviewed 571
Biological weed control. Biological control in the management of invasive alien plants in South Africa and the role of the Working for Water programme 34
Biological weed control. Targeting emerging weeds for biological control in South Africa: the benefits of halting the spread of alien plants at an early stage of their invasion 64
Biomass of invasive Australian wattles. A preliminary assessment of utilizable biomass in invading *Acacia* stands on the Cape coastal plains 123
Bird behaviour. Iris colour in passerine birds: why be bright-eyed? 584
Black gold miners. Contrasts of cancer rates among black gold miners from Transkei and Lesotho 491
Black wattle. Water use by black wattle (*Acacia mearnsii*): implications for the link between removal of invading trees and catchment stream flow response 40
